The Way of Council and the Art of Mirroring

January 25 - January 29, 2017

The Way of Council and the Art of Mirroring are invaluable practices on the descent to soul. Although much of the descent is solitary, gathering with others in council can make all the difference in finding our way. In the mirror of another, our eyes are opened to aspects of both our gifts and our challenges that we might not have seen otherwise. We are encouraged and inspired to drop into realms that are scary, edgy, darkly alluring, mysterious, and ecstatic - dangerous, yes, but keenly aligned with our deepest longings.

Cost: \$2300 AUD.

Full residential program. Limited numbers. Some part scholarships avail by application.
Ten percent discount for registrations before 30 September 2016.
